Clinical Research Associate: Certificate Course (with 100% Placement Assistance)

Launched by **Placement and Career Counseling Cell, Ramakrishna Mission Vidyamandira**, in collaboration with [Neotia Skill Development Academy](http://www.neotiaskill.com)

Clinical trials have grown significantly post-COVID, and with the influx of some unscrupulous companies pushing sensitive products without clinical trails have made regulations more stringent. The clinical trail value chain is quite lengthy calling for engagement at all stages like regulatory, admins, protocols, trail site coordination, trial monitoring, reports, approval, and necessary research. Consequently, **industry is looking for skilled professionals such as Clinical Research Associate who would assist in one or more elements of this value chain and these kind of skilling is very focused and specific.**

Here is an opportunity for those graduates, post-graduates, and professionals with **bioscience or microbiology, chemistry, pharma, biotechnology,**

pharmacology, physiology, BMLT, BDS, BHMS, or even medical graduates or those in technology space to explore the coveted career options.

Neotia Skill Development Academy and Ramakrishna Mission Vidyamandira, has announced the course on Clinical Research Associate to provide such opportunities, supported by the Life Science Sector, Skill Development Council, Govt. of India.

Enroll for the course and give your career a boost!
