Placement Assisted Course on 'DATA ANALYTICS USING AI'

.....
Placement and Career Counseling Cell, Ramakrishna Mission Vidyamandira, in
Collaboration with [Neotia Skill Development Academy](#)

If you are still thinking why to choose Data Analytics Using AI,
then here is the answer !

With the advent of real-time data analytics and AI tools, businesses now generate vast amounts of data from sources like customer interactions, transactions, social media etc. Data analytics with AI enables business organizations to extract valuable insights from big data. It predicts future trends and outcomes based on old data

patterns, uncovering trends, and correlations. By leveraging machine learning algorithms, thus business houses can estimate sales, spot market opportunities, forecast customer demands, operational challenges and reduce risks more accurately.

Therefore, to drive successful functioning business owners are always in search of data analytics experts. At Neotia Skill Development Academy we curate the Data Analytics and Data Visualization using AI course with the help of hands-on projects and real-world case studies, which can help them develop critical thinking and problem-solving skills.

After the course, they will find opportunities to work as Junior Data Analytic Associate, Business Analytic support, Data Warehousing Engineer, Data Scientist, Business Intelligence Technician and many more.

Embrace the challenge, become the future leader with us !
